SERVE medically underserved and at-risk populations through community-based experiential learning assignments

GAIN experience working in interdisciplinary teams and developing professionally through mentoring, networking, and certificate programs

RECEIVE $500 stipend per year and recognition upon program completion

JOIN degree-seeking health professions students (clinical and non-clinical) who want to work with under-served populations

APPLICATION DEADLINE: flahecnetwork.org/ahec-scholars by September 25th, 2020

APPLY ONLINE: flahecnetwork.org/ahec-scholars by September 25th, 2020
The Florida AHEC Scholars Program will provide students with interprofessional learning opportunities focused on building the skills and competencies needed to help transform primary care and improve patient care, especially in under-served communities. Program duration is two to four years, depending on the student’s profession. Each year includes 40 hours community-based, experiential, or clinical training and 40 hours of didactic online education.

The Florida AHEC Scholars Program is open to students in disciplines that support primary health care services delivery in both clinical and non-clinical roles.

Only 150 students across Florida will be selected to become AHEC Scholars. Applicants must be enrolled in a health discipline degree that is at least two years in length.

Applicable disciplines include, but are not limited to: Medicine, Physician Assistant, Public Health, Dentistry, Occupational Therapy, Physical Therapy, Psychology, Nursing, Dental Hygiene, Pharmacy, Social Work, and Emergency Medical Technicians (2-year programs). If you have questions about qualifications, please contact our office.

Participants must also have access to a computer and reliable transportation.

Student Benefits:

- Receive a $500 stipend annually ($1,000 total)
- Professional development
- Conduct student research
- Participate in community-based service learning
- Networking and mentoring opportunities
- Supplemental learning experiences
